

# FootbagPix

## FootbagPix User Documentation

### Game rules

- To gain points, you have to keep the ball in the air
- You can use your feet or knees to hit the ball
- A successful hit is if the ball is hit before it lands
- The first hit after the start of the game, or after the ball landed on the ground doesn't count
- Combo points can be gained by successfully hitting the ball multiple times in a row, or by performing a turn trick
- Combo points multiply the points you get for your next successful hit
- A round lasts 60 seconds, under this time you have to get as many points as you can!

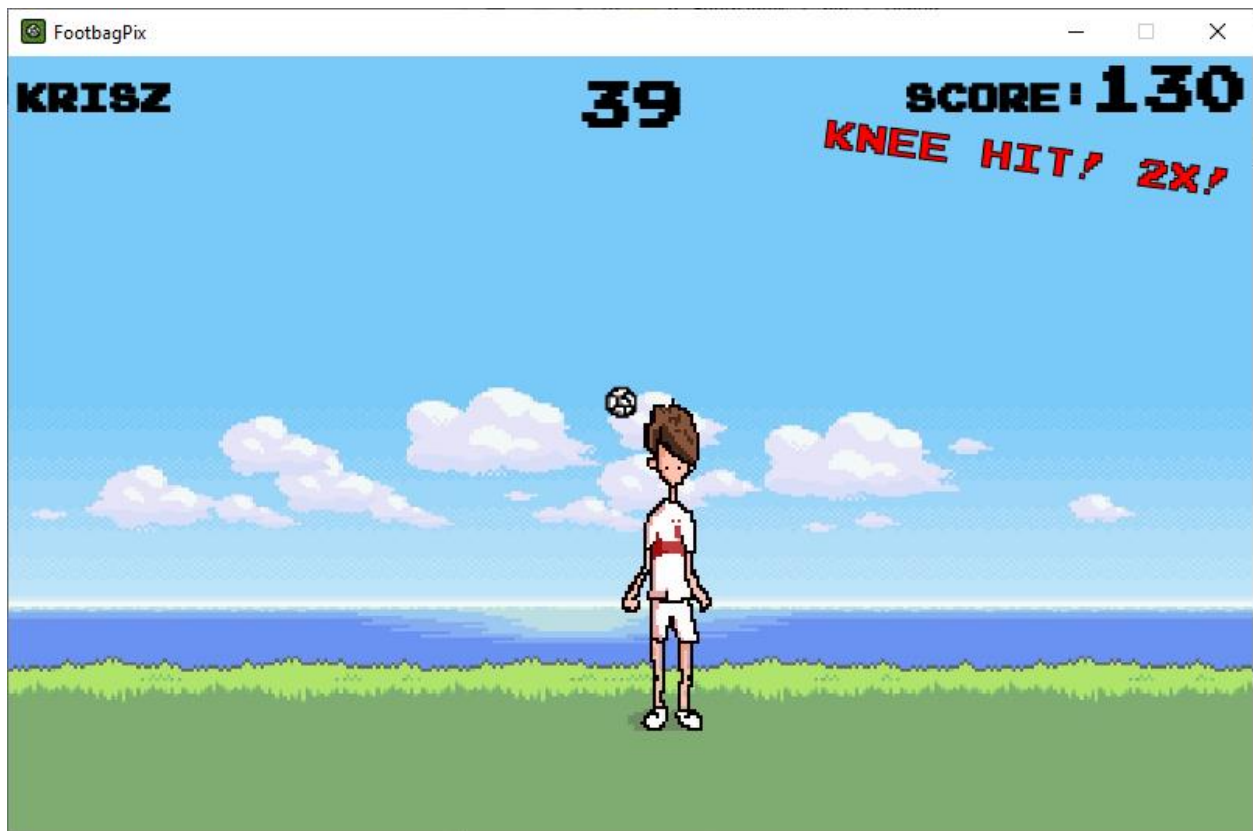

### Main menu

After opening the game, you are greeted by the main menu. You have the following options:

- Play: Type in your name, and start a new game
- Load: Select one of the previously saved games from your local machine to continue
- Scoreboard: Check the achieved scores for the game. This is a global leaderboard; you can see the scores of every player from all over the world!
- Controls: You can check all the controls required to played to game here
- Quit: Exit the game

## Gameplay

During gameplay, you have your character and the ball on the screen, but also some extra information:

- In the top left corner, you can see your name
- In the top middle, you can see how many seconds are left
- In the top right corner, you can see your current score, and below that the number of combo points you have, and the previous combo you performed
- During the game, you have the option to pause and save the game (Press 'ESC')
- After the game is over, you can see your achieved score and highest combo
- Go check out the scoreboard, to see how you did compared to other players!

Scoreboard			
NAME	SCORE	MAX-COMBO	DATE
1. KRISZ	1360	21X	4/11/2020
